

NEURO PEPTIDES

CogniPep

CogniPep is a supplement that aims to improve cognitive health and brain function. Featuring a unique blend of porcine-derived neurotropic factors and advanced bioregulator peptides, CogniPep promotes optimal neural communication, neurovascular health, and balanced brain activity. Experience focused clarity and enhanced mental performance with this scientifically crafted formula.

CerebroPep

- *Neuroprotective properties
- *Neurotrophic repair properties
- *Supports cognitive health and well-being
- *Helps prevent cognitive decline after brain injury

A special formulation of porcine derived peptide blend brings the highest standard in quality and safety to support cognitive health and well-being. Similar to other porcine neuro peptides such as Cerebrolisin, which is administered through injection, CerebroPep marks the entrance of Integrative Peptides into the neuro and cognitive space without a needle!

*Cognipep starting at \$160, and Cerebropep starting \$110.
