

# BPC-157

BPC-157 (Body Protecting Compound) is derived from a protein found in human gastric juice. It has garnered attention for its strong regenerative effects on tissues, particularly the gastrointestinal tract, joints, and connective tissues.

BPC-157 has many therapeutic uses.....

- **Gastrointestinal Protection and Healing**  
-Helps promote healing of the GI tract, including conditions like ulcers, inflammatory bowel disease (IBD), irritable bowel syndrome (IBS), leaky gut syndrome, Diverticulosis, and Diverticulitis.
- **Joint Health and Arthritis Relief**  
-Reduces inflammation and supports cartilage repair, beneficial for osteoarthritis and degenerative joint conditions.
- **Tissue Repair and Wound Healing**  
-Accelerates healing of muscles, tendons, ligaments, helps with skin wounds by improving blood vessel formation, and even helps collagen repair, by tightening up the skin.
- **Reduction of inflammation**  
-Exhibits anti-inflammatory effects in conditions such as arthritis or inflammatory bowel disease.
- **Other Benefits**  
-Neuroprotective, neurological repair, improved cognitive function, cardiovascular health, stem cell activator, safe for all ages, anti-inflammatory, and wound healing.

\*Starting at \$140 for injections, and \$160 for capsules or oral spray. Prices are subject to change. \*
